

## Desired Conditions

Rak Tamachat will be financially sustainable by Jan 2014.

At least 75% of the monthly income will be produced onsite by Jan 2014.

Rak Tamachat will be producing 50% of all food consumed on the farm, by weight, by Jan 2014.

## The Game

Three people are assigned to the board each month.

They are in charge of producing and populating the numbers for their section of the board each week.

Each month the challenge increases as we work toward the desired conditions.

The Plan numbers show the goal for the month and are distributed over the week.

Two games are played:

Rak the Income &

Rak the Produce

How to Win:

Rak The Income - Beat the total Income plan AND the % Sourced on Farm Plan for the month.

Rak The Produce - Beat the % FFF Plan for the month.

Each game won earns a FREEDAY pass
